JAPANESE PRISS

RESTICTIONS

The lot of a semi-official paper in the Japanese "new territories" is not altogether a happy one, says the "Jupan 7.30 A.M. and from Hongkong at 12.30 r.M., from the Company's Wing Lok Street Chronicle." Even the complaisant Scoul Press was suspended a year or two ago for permitting an extract from another journal to appear in its columns to which officialdon took exception. Now the Manchuria Daily News has suffered a worse fate as the result of an unhappy i printer's error. This journal is an organ of the South Manchuria Railway Company, or, in a other words, it is one of the Press Bureau publications. By an unfortunate printer's error which we are sure no one regrets more than those responsible for its occurrence, the portrait of the present Emperor and Empress of Japan appeared with a black border, inscribed "The Late Emperor and the Empress Dowager," or words to that effect. Fan in each Cabin. As a result the paper has been suspended and not only this, but it is stated that the editor and his assistants will be deported. We should have thought that the wiscet plan would have been to ignore such a palpable slip, and leave the editorial staff to make the natural apology to readers. But this would not satisfy the officials, who fear doubtless that if they do not take action they will be held responsible in some measure themselves. Observers who have watched affairs in Japan for many years, ever since the stand taken by certain Japanese on the question of bowing to the Imperial portrait, have frankly stated it as their opinion that this terror of doing or saying anything that may be counted as disloyalty is beginning to be a veritable obsession among certain officials, and may have serious effect on questions of administration.

FORTY SUCCESSFUL YEARS. HOB almost forty years Chamberlain's Colic, Cholera and Diarrhoes Remedy has been curing cramps in the stomach and bowels, dysentery and diarrhoes and has never been known to fail to give relief even in the most severe and dangerous cases. You can make no better provision for the safety of your family than to keep a bottle of this remedy ever at hand, For sule by all Chemists and Storekeepers."

doubtedly something seriously wrong with

the Dreadnought which Austria is building

to modernise her fleet. The trouble is

with her turrets, which are of the triple-

gun pattern and are apparently so much

heavier than had been anticipated that

they do not sit correctly on the set

of rollers on which they should revolve

with balanced case. Of course the

authorities are minimising the difficulty

as much as po-sible, in official explana-

tions, but it looks as if there were

sound reasons for the objection raised by

weight being crowded into one turret.

That the difficulty will not prove insur-

mountable is more than probable, although,

as in previous cases of the sort, alterations

in the present ships may leave them un-

it is the mountings, for the turret guns,

according to official statements, that have

proved to be heavier than was anticipated.

The weight of the guns can be ascertained

the British firms are the most successful in

securing strength with lightness in heavy

gun mountings, and the mounting for our

new 13.5 in guns, in our later capital

ships, is looked upon no no excellent

example of good design and workmanship.

Reading between the lines of the report

about the new Austrian Dreadnoughts

their serious defects do not appear to be

localised solely in the turret gun mount-

inge, or even in the turret, but to extend

to other than the gunnery department.-

BRITTLE GIRL.

An Extraordinary Disease.

Lying helpless in an armchair at the Homoeopathic Hospital in Great Ormond-After making full allowance for the street, London, W.C., is a girl of fifteen named Edith Winter, of Boundary-lane, Camberwell,/S.E., who is suffering from a mysterious disease which is causing her muscles to turn into bone. It is the same disease that attacked Allan Rusbrook, known as the "brittle man," who left the

same hospital partly cured some months ago. The disease began to develop soon after birth, and she was taken to the hospital about a month ago., Since then a few signs of improvement have been observed in her condition. She cannot walk or even stand unsopported, and can hardly move her head at all, as the muscles of the neck and on either side of the face have largely turned to bone. The muscles of the jaw have also the British authorities against so much hardened, and it is with some difficulty she is able to cat.

"Great care has to be exercised in moving her. "If she were to fall the hardened muscles might break," said a doctor yesterday. "When I lift her," said one of satisfactory for the whole of their careers. the hospital nurses, "I feel as though I am holding a bundles of sticks." It is four years since Edith took her last walk.

LEVER'S JAPAN WORKS:

The new works of Messrs. Lever Brothers, near Amagasaki, are almost completed, and it is believed that in a short time the products of this company, made in Japan, will be on the market. We note that at an extraordinary general meeting of Lever Brothers, I imited, held at Port are unchanged with probable sellers at \$5, | Sunlight on July 9th, it was decided to incress the capital of the company , to £20,000,000 by the creation of 6,000,000 new five per cent, accumulative "A" preference ordinary shares of £1 each. Sir William Lover, who presided, said that, following the usual practice, the new capital was created in such a way that it would rank I oth for capital and dividend after the already created preference and preferred ordinary shares of the company. It was not intended to make any immediate i-suc of any portion of the newly-created capital. The necessary resolutions were

carried unanimously.

The promoters of the Alexandra Day rale of wild roses on behalf of London charities have now received £17,803. Collections still outstanding are expected to augment the total to £18,000. Replyint to complaints of the heavy expenses (estimated at £5,244), the organisers point out that fully two-thirds of the imitation tores purchased remain in hand for next year's fete, when it is hoped the celebration will be extended throughout the United Kingdom and the over-sea Dominions.

THE KING'S PRIZEMAN AT BISLEY.

Londoner's Fine Victory.

Bisloy Camp, Sunday, July 21st. Yesterday the fifty-third annual Imperial rifle meeting was concluded at Bisley ranges. London marksman have won many henours. A most notable feat has been accomplished by Private Arthur George Fulton, of the Queen's Westminsters, a dark-eyed, handsome young man, 24 years of age. He has long been known as a consistently good shot, for he had been included in the King's Hundred five times previously. At length, on Saturday, he gained the coveted Blue Riband of the shooting world.

It is a case of true heredity, for young Fulton was cradlel, if not born, in arms, his father Armourer George E. Fulton, of the Queen's Westminsters, having won the gold medal in 1888, when this year's winner was but a year old!" It is altogether a pretty story of faithful filial stedfastness, for the son set himself to walkin his father's footsteps, following his calling of gunsmith, and being a member of the same distinguished Territorial corps. The weather on the whole was pussable, although a shower or two fell There was no troublesome wind, and the light on the targets was tolerably good. As the end of the contest drew near at the 1,000 yards the spectators comprised the Secretary of State for War, Colonel

Seely; Field-Marshal Earl Roberts, undress uniform: the Lord Mayor of London, the Lady Mayoress, and Sheriffs, Major-General Lord Cheylesmore, many N.R.A. officials, and other well-known personages. The returns of each shotmade by the different competitors in the running were engerly awaited. Things had gone wrong with the wonderful Scottish shot, Ommundsen, winner of the bronze medal in the first stage, and the South African, Sergeant Harvey, who had secured the silver medal, was drifting buckward. Ommundsen had blamed part of his misfortune to a partial blowback from a faulty cartridge. Chaplain Fenn, if the 5th Essex, made a "possible" at the first, the 800 yards, range, and led the silver medallist by one point. At the 1,000 yards Fulton was behind Chapain Fenn, Sergeant Harvey, and Lance-Corporal Wilson, of the London Scottish, by one point. But he was evidently absolutely, unruffled, his shooting being alm and steady. Chaplain Fenn had inished his third stage and made a grand otal of 384, being ahead of all competiers, and everybody fancied he was a sure vinner: With his last shot to fire, young Fulton required a bull's-eye to win by ' magpie." 3, would have lost him the Co., Lan. orize, and an "inner," 4, would have neant a tie.

A POPULAR WIN. " The growd stood, hushed in expectancy, waiting the result. When the disc ignalled back the winning "bull," 5, there was a tremendous roar of cheering from 1st April. for the victor, and friends rushed to grasp his hand. It was unmistakably a most | First floor. popular win, and everybody who could set near enough hastened to congratulate young Fulton-amongst them Colonel seely and Lord, Cheylesmore. Colonel Soely, standing upon a chair, said: "Lord" Cheylesmore has asked me, on behalf of She Council and members of the National Rifle Association, to congratulate you, Private Fulton, on winning the King's Prize." Colonel Seely's call for "Three the whole assembly, men and women, who cheered the King's Prize man three times three. The band was in attendance, and so were a number of the Queen's Westminsters and friends, and Fulton was at once chaired and borne in triumph around the camp to the strains I "See the Conquering Hero Comes." In the first stage, on Thursday, Private Fulton scored 31, 34, 34-99. In the second stage he added 46 and 48, bringing

is total to 193, with which he entered the third stage. The names of the first three in the list

LIFE WITHOUT HEALTH IS LIVING DEATH.

This remarkable compound, the latest discovery of modern times, is without equal in all cases of defective nerve and brain power, whether induced by worry, overwork, dissipation, or other influences. Siceplessness, palpitation, defective circulation, nervous dyspepsia, tie or neuralgia, low spirits, mental and bodily prostration, want of confidence, general debility, premature decay or deficiency of the vital forces, loss of vitality, harassing dreams, restlessness that can settle to nothing, irritability of temper, female complaints, hysteria, backache, bearing down squaetions, wasting diseases, consumption, sight awests, muddy, high-coloured water, &c., are all so many different phases of brain and nerve wreckage and exhaustion, the cause of by far the greater portion of the misery, ill-health, and despondency by which we are confronted on every hand, that can only be successfully combained by the use of this wonderful and highly scientific preparation. Bracing up the system generally, it gives tone to the exhausted nerves, arrests all weakening wasting discharges, restores the falling energies, and imparts new life and vigour to those who had so recently seemed played out, used up and valueless. Hottles Price 28. 94.

WITHOUT PURE BLOOD HEALTH IS IMPOSSIBLE

t cases of pooruess, impurity, or other imperfection of the blood from whatever cause arising, No sooner is it imitibed into the system than it permentes and penetrates to the minutest capillaries, overcoming and expelling disease, wheresoever and in whatsoever form met with; removing all blotches, pimples, scurf, scurvy, scrofulous and glandular swellings, discolorational roughness and unsightly patches, &c. Its elects are almost magical in the treatment of gout, theumatism, sciatics, lumbago, pains and swellings of the joints, discharges, blood poison, ecrema, lepra, osoriasis, bad legs, bad breasts, abscesses, ulcers, wounds, sores, goltre or Derbyshire neck, it improves the general health, and quickly removes long-standing broachilis, asthms, and backing, arraining; spasmodic cough, too-elen the precursor of consumption. CHINESE OPIUM TRADE.

Growth of the Local Traffic.

Below we publish extracts from letters addressed to the Under Secretary of State for Foreign Affairs by Messrs, E. D Sassoon and Co., in reference to the Chinese opium trade.

In a letter of June 28 Messrs, Sassoon refer to their request proviously puts to ward, that the Government of India would suspend the sales of certified opium until the Chinese Government could b induced to carry out their Treaty obligations. The Government of India having refused to entertain this proposal, Mesers. Sassoon wrote :\" The only reason given in your (the Under Secretary of State's) letter for this refusal is that the Government of India has undertaken to make no change without giving three months notice. Our request to suspend the sales referred to certified opium only, and we think we are correct in saying that all the buyers of opium certified for China are ananimous in asking for this suspen sion. Exceptional circumstances call for exceptional remedies, and if the buyers of opium car-marked for China are unanimous in their request for suspension surely the three months' notice can be dispensed with. May we beg that this 535 point may be pressed upon the Government of India, as matters have arrived at a very critical stage. We have the honour to place before you the following telegram received from Shanghai: 'Fol lowing from Kinkiang: Consul has pro tested against new Regulations. Turn maintains, without supporting his conten tions by arguments, that Regulations conform to Articles 2 and 3, Agreement 1911. It is notorious that various provincial Governments pay no attention to

in accord with their wishes." be unable or unwilling to control the Express." Provincial Governments. If it is able but unwilling to do so, we trust that pressure may be brought to bear to in sist upon Treaty obligations being carfried out. If, however, it is willing but unable to impose its will upon the provincial authorities, it is difficult to understand how it will be able to control the expenditure of the money now being loaned when that money goes into the provinces. As you are already aware, Bri. Mayor presiding, tish merchants engaged in the legitimate opium trade in certified opium are faced with: (1) Grave restrictions, and, in some of the schief markets, total prohibition: (2) large and immovable stock, bought prices: (3) continued Government sales other dependents. of opium certified for China: (4) extensive smuggling of uncertificated opium; (5) a rapidly-increasing production of the native drug, in direct contravention of existing Treaties. This last clearly proven the insincerity of the Chinese Central and Provincial Governments, and of the so called Anti-opium; Bureau, their sole object evidently being to create a monopoly for the native drug. We have all along opium question, and more than once during the past two years we have had th honour of calling the attention of the Government to the obvious goal aimed at. We beg to point out that the Chinese Government, and the Chinese Government alone, is responsible for the enor. mous losses inflicted upon British merchants, and should, therefore, be forced merchants. Disregard of Treaties by the provincial authorities began long before the Revolution, at a time when the central authorities had the power to enforce however, was done by the Central Govern-

its will upon the provinces. Nothing, 5th instant. The passengers, says the ment, who allowed the disregard 128 Treaties to spread from one province to laged 21, a copper engraver, and Tashiro another, resulting in a state of affairs Chiyo, aged 34. In the cabin which they which brought about the Agreement of had occupied two letters, written in pencil, 1911, amending existing Treaties very were found, written by the man and the nuch in favour of China, and to detriment of British interests."

Mr. Acland's notice the following telegram received from their Shanghai

"We have telegraphed to Peking Minister as follows: Information has been received from Kinklang, monopoly established Klangsi. Opium not allowed in interior Provinces. Kiukiang merchants. asking for cancellation of their opium contracts. If the Central Government is unable to enforce observance of Treaty. we respectfully submit that it is the duty of British Government to enforce same. Prompt measures must be taken, otherwise defiance Chekiang and Kiangsi will

They added: "While China is impesing restriction after restriction upon the trade in Indian opium, she is now allowing native opium to be exported from one Province to another. Is this the measure of China's cornestness to suppress the onium liabit?" and drew attention to the extensive smuggling of suncertificated

opium into China from Macao, Jarge quantities being shipped direct from Calcutta to that port.

On June 15 eleven banks-the Chartered Bank of India, Australia, and China the Hongkong and Shanghai Bank, the † Doutsch-Asiatische Bank, the Mercantile Bank of India, Limited, the Russo-Asiatic Bank, the Yokohama Specie Bank, Limited, the Banque de l'Indo-Chine. the International Banking Corporation. the Banque Sine-Belge, the Netherlands Trading Society, and the Bank of Taiwan, Limited-drew the attention of the Consular Body at Shanghai to the critical state of the opium trade. . "For many years past," they wrote, "it has been the custom of the different banks to finance shipments of opium from India to this port," and in the ordinary course of business to make advances on the same when it has been stored here waiting sale. In making such advances they have provided for the ordinary market risks, but have depended on the Chinese Government fulfilling its obligations in the matter of International Treaties and Agreements. Since February last the Chekiang authorities have prohibited the importation of and trade in Indian opium, in absolute contravention of existing treaties, causing accumulation of stocks in Shanghai, and heavy depreciation in the value of Same. While prohibiting the trade in Indian opium, it is a mattor of common knowledge that the Chekinng authorities have allowed the cultivation of the native drug in that province to continue unabated, and that it is sold freely in Shanghai. . . . We respectfully beg to ask the Consular Body to transmit this protest to their respective Ministers at Peking, and request them to protect our interests, either by insisting on the Government enforcing the adherence of Chekiang Province to existing instructions of Central Government II not | Treaties and Agreements, or by obtaining a promise from them to make good any "The Central Government is stated to lesses we may sustain .- "I., and C.

367 TITANIC WIDOWS.

Half-Wages For Dependents Of | Total paid Policyholders 1910 Crew Of Ill-Fated Vessel

A meeting of the Mansion House Committee of the litanic Relief Fund was held at the Mansion House, London, the Lord The Mayor of Southampton reported that

of 673 of the crew who were drowned 535 belonged to Southampton and 138 to other places. In respect of those belonging to Southampton claims had been made for 239 from the Indian Government at high widows, 533 children under 16, and 213

Sir William Soulsby said that in respect of 461 of the 817 passengers last claims hadsbeen received. Of these 232 were British or Irish, 12 Austro-Hungarians, 18 Belgians, 33 Bulgarians, 3 Danes, 2 French, 1 Italian, 16 Norwegians, 36 Russians, 72 Swedes, 19 Swiss, and 17 Syrians. These claims showed 128 widows, 255 orphans, 452 parents, and 563 other relatives.

The Public Trustee (Mr C. J. Stewart) ubmitted a draft scheme for the permanent nelp of the widows and orphans of the doubted the sincerity of China on this crew. It was decided to obtain more exact actuarial calculations as to the amount required for the relief of the dependents of the crew and passengers as a whole. Meanwhile, as regards the crew, half wages would be paid, as a general basis of help, with discretion in cases of large families. As regards passongers' relatives, applica tions for temporary help would be gladly entertained pending final settlement.

Two passengers, a man and a woman on board the N.Y.K. steamer Yamaguch Maru, disappeared when the vessel entered the Enshu Nada on her way from Yokohams to Kobe early on the morning of the Japen Chronicle, had given their names of on hooking their tickets as Ishizuka Yosei, woman to their respective relatives, an stating their intention to commit suicide On July 9 Messes. BRAIN FAG.

THE SIMPLEST AND MOST

OF the conditions which demand most sympathy and receive least, there The cause of brain fag is due to the

using up too rapidly of the phosphorus

nouri-hing the brain and nervous system. To cure this condition, the amount of phosphorus must be completely restored. The ordinary salts of phosphorus wich were always used have now been proved to be quite inefficient for the purpose. What is needed is a phosphorus preparation in the "organic form" and in "chemical combination," as doctors call it. Of all the salts of phosphorus the best are these known as the glycero phosphates, for it is in that combination phosphorus is found in the nervous tissues and the brain. The best sub-tanco with which it can be "chemically combined " is with the bodyhuilding part of pure cow's milk. These two substances find their ideal combination in Sanatogen, which is universally acknowledged throughout the world to be the greatest revitalising and reconstituent prepuration known to Science and, as a writer The Medical Press and Circular states It has strengthened the physician's hand hundredfold

In further discussing Sanatogen that paper writes: The explanation of the good results it produces is simple" enough. Sanatogen supplies the much needed nutrition of the brain cells. consequence, the patient sleeps, his energy of mind and body is gradually restored and he takes exercise and gradually returns to his natural occupations and amusements. Last, but not least, his brain being in a healthy condition, he loses his depression

These words must convince every suffer. from brain fag that in Sanatogen he has a means of saving himself from further suffering, and of so nourishing his nervous system that he need never again suffer from this complaint.

RAMBLING NOTES.

While the most important event of the week, from a national point of wew, has undoubtedly been the "Peking Sensation," caused by the news that two Gunerala had had their heads lopped off rather hastily by Yuan Shih Kai, the event of most importance locally has certainly been the atrocious tragedy at Dumb-Bell Island, as the Foreigner culls it, or Cheung Chau as it has been named. from time immemorial by the Chinese.

On the latter I have a few remarks to make. They may not have the effect I desire, but, on the other hand, they may, "You never can tell," as G.B.S. the Magistracy, and were remanded in says, what effect may be produced when you take it upon yourself to humbly prof fer to the powers that be.

I want the authorities to seriously

bestir themselves in the proper direction so that such an atrocious tragedy as occurred last Monday will have little chance of occurring again, without, at least, those at such stations being able to take some steps towards securing immediate assistance. I believe it is unnecessary that the police force on such islands should be incressed. for their strength in that respect seems tonbe sufficient. What will require to be done, however-and with all the more haste if these troublons times are to conpounds sterling (odd) was paid thereon in | tinue will be to have electric communicapostage at the rate of One Penny per Ounce | tion in operation between the outlying islands; the mainland and Hongkong.

This step will involve not a little outlay, but it will be amply justified if it whether in or out of Chins. Perhaps some | tends to prevent such terrible tragidies as the one all have been deploring, by which the lives of three brave and useful Indians-subjects of the British Empire-The Garrison Staff Mess was again were lost in a struggle against great odds

> As for the national sensation Peking it has long before now-at least to all appearance— considerably abated.

The decapitation of the two general in such a summary manner was certainly to all appearance, a very drastic and un constitutional procedure. It savoured too much of the despotie ways of the Manchus, and, consequently, China's free ar enlightened Republicans were naturally highly indignant.

It is a clear indication, I think, that China is on the right lines, in expressing a native of Chesterfield, died about 8,30 her indignation so vigorously against the summary manner in which the execution was carried out. And the people are right, as both Yuan Shih Kai and General Li Yuan Hung would readily admit, for the day has now passed when people may be executed without a fair and open trial.

In regard to this matter, I was glad In a quarrel with his wife because of to read of the indignation of the National inquire into the question. To my thinking, they allowed Your Shih Kai to dissunde them-or to convince them, perhaps-much too easily from the course they had marked out for the investiga-

> Since then, however, I have read with pleasure that the Minister of Justice has demanded of the President and General Li Yuan Hung that he should be informed why the generals were not brought to trial.

This is the proper course-the Constitutional course-and it is gratifying and encouraging to learn that it is meeting with general sympathy, throughout the Empire. ..

I have no doubt whatever that both General Li and President Yuan will be able to completely justify the necessity well be drilled to z depth of about 5,000 | they will probably find it more difficult to take the law into their own hands and net in the capacity of both accuser and

> Meanwhile we'll hope for the best, and trust that this regrettable occurrence will show that both the President and the Vice-President (which position I suppose General Li still retains) were justified by the urgency of the case to act promptly and that the indignation expressed by the Assembly and the people in general will show that the Chinese are progressing in the right direction.

The cleventh ordinary general meeting of the shareholders of Mesers. William Powell, Limited, was held this morning at the company's premises, Des Voeux Road Central, Mr. H. J. Gedge, chairman of directors, presided, and there were also present Mesers. G. C. Moxon, director, F. T. Chapple, manager, F. W. Stapleton, L. Guy, E. Mauricio and H. Percy Smith.

The Manager read the notice conven-

ing the meeting. The Chairman, moving the adoption of the report and statement of accounts, said :- Gentlemen .- The report and statement of accounts for the year ending Both June last, together with the gudi tors certificate having been in your hands some days, with your permission I will follow the usual custom and take them as read. You will note the net amount at profit and loss is \$10,156.18, which it is proposed to deal with by paying dividend of 40 cents per share, wipe off \$2,000.00 from fixtures and fittings, and carry the balance forward to new account. Your directors are gratified to come begiven again ordinary conditions there is no reason why such a basis should not always be maintained.

The volume of business transacted during the year under review exceeds considerably that of any previous year in the history of the Company, and now we are thoroughly settled in our new premises (premises which shareholders should congratulate "themselves

possessing), with all departments so compact and affording such excellent opportunities for displaying our goods, the future should have a bright and promising outlook for us. All the offices above our store are let to substantial firms at very fair rentals, our stock is thoroughly elean and the value put upon it represents

Our interests are so well looked after in London that we are able to display new goods here simultaneously with their appearance in the leading stores of London or Paris. Our manager has devoted considerable attention to the revision of our various prices in order to successfully meet present day competition, and there s absolutely no doubt the goods we are offering to the public to-day, are clean, fresh and up-to-date, and our charges will bear the strictest scrutiny in comparison with any others.

There is nothing more I feel I can usefully add but before formally proposing the adoption of the report and accounts now before you, I shall be pleased to answer, any questions that may be put to the best of my ability.

Mr. Stapleton seconded the adoption of the report, and there being no questions, the Chairman put the motion and it was carried unanimously. "Upon the motion of Mr. Guy, seconded

by Mr. Stapleton, Messrs. Gedge and Moxon were re-elected directors. Mr. H. Percy Smith was unanimously

re-elected auditor on the proposition of Mr. Moxon

The Chairman announced that thi concluded the business and thanked those present for their attendance. Dividend warrants would be ready on Monday.

KWANGTUNG NEWS.

THE WOMEN'S PESTIVAL.

Everybody knows that the seventh evening of the seventh month, old reckoning. is the great festival for Chinese maidens. What is done is called "praying for wisdom," and, with the Chinese women in the past, the "windom" most sought after is cleverness with the needle and thread. The said evening has just passed. The experience of the festival has shown that education, and the "new times" have not materially changed the feelings of the women and girls in regard to this festival. It is said that the business people, who usually prepared the things that are called for at this time, because of the supposed change in ideas, did not, as in former days, make anything like as extensive preparations, supposing that there would he a much smaller demand. It has been, found, however, that neither education nor a Republican Government has altered the habit of the people in this regard, and so the sto k on sale was quite insufficient to meet the demands made on the shopkeepers. There has been some departures, however, from the old routine. For instance it was seen that a great many couples were walking in the streets together, presumably married couples. The in some places there was singing. This singing is described in the papers as being very wonderful, and whilst it was going on it attracted large numbers of yout a who gathered outside the doors and listened, and seemed to enjoy the novelty. One of the strange aspects of festival was the number of nuns, who have left the monastaries, and have returned to ordinary life. It is said that up to the fore you on a dividend paying basis, and | present their hair is only partially grown. Therefore though some of them were very fashionably attired, because of their hair, the youths could not refrain from laughter, and hardly from jibes. One part of the programme shows how popular are the leaders of the Revolution, and how deeprooted are the feelings in the Chinese in regard to the past tyrany to which they were subjected, and that girls as well as men are the subjects of the feeling. Some enterprising shop-keeper made some pictures of the leaders of the Revolution. such as Sun Yat-sen, and Li Yuan-hung, and put these pictures or rough sketches of these national heroes in the window for sale. The y- ung women rushed to by them, as if they were specially fashionable finery for personal wear, and these pictures were taken home to be hung up as national heroes, and probably some will burn in-

The native papers for two days in succession have been reporting some quarrel between a servant in one of the foreign hongs on the Shameen, and a foreign connected with the said hong. It is said that the Chinese servant received a good thrashing, and was then handed over to Consul, and, thereafter, was imprisoned for some weeks. But the incident did not end there. All the native employees in the hongs struck work as a protest, and there is a movement on foot to induce as many as possible of the Chinese servants on the Shameen in various capacities to strike, and so leave the foreigners in the lurch. Indeed a pumphlot has been published and circulated, in order to stir up the natives. So great has been the pressure, it is reported, that the Europeans of the hong in question have had to mess elsewhere, and the inconvenience is so considerable and annoying, that the Head of the hong hus beeng it is reported, to the Consulate, with a view to getting the Chinese released. The Consul, on the other band, does not seem willing to accode to such a request, as it would be playing fast and loose with the dignity of the law. Such in brief is the story which is found in more than one native paper, and the gistof what was reported is the same in each.

-On the fourteenth in the evening one of 25th Punjabir, were charged to-day before the passage boats from the country reached Mr Melbourne with having stolen four Canton. They were imme intely stopped and arrested, for itwas found that the whole six of them carried bombs on their persons. They were at once marched off to prison, but nothing has yet transpired, as to where they got the bombs, nor was was their intention in regard to them. A daring use of bombs is reported from Wang Ho market town, which seems to be in the Pok La district. At five o'clock in the evening, a party of mon attacked a pawnshop, and easily gained admittance. They then threw some bombs which made a great commotion, Four of the assistante were bedly hurt though apparently none was killed. SINGAPORE'S FUTURE.

In view of the claim which has recently been put forward that the Dutch East Indian port of Batavia, in the island of ARE Java, is ousting Singapore as the great AUSTRALIAN EMIGRAdistributing centre for that part of the East, it is of interest to investigate the actual respective positions of these com-REMARKABLE INCREASE IN mercial rivals. Probably the wish is father to the thought in regard to the Dutch port's alleged triumph, for there (Reuter's Service to the China Mail.)

is neither sign nor prospect of any fallingoff of activities at Singapore indeed. avery indication points in a contrary direction. The most recent statistics available which have just been published Show that the aggregate trade of the Colony of the Straits Settlements in one year amounted to about 85 millions, sterling, an increase of over 12 millions, or 17.1 per cent., on that of 1909. Of this total, the imports of merchandise accounted for £40,043,000, or an increase of 15,190,000, and a rise is noticeable in ly Australia was handicapped by lack: nearly all the items of European origin of shipping accommodation. Official particularly cotton goods, woollens, hardwant, corrugated iron cycles and motor payment of 20 cents cash, Hongreturns, published yesterday, show that 154,344 emigrants left Britain in the cars, steel, comeut, soap, paper and first seven months of 1912. The stationery, glass and crockery, etemigration to Canada is decreasing, European "goods were imported to the value of £8,851,000, an increase 1031,000 on the average of a five years' period, the United Kingdom, by the way.

supplying 65:6 per cent, of this amount. The above facts dispose of the idea that Singapore has lost any of its old prestige and our local resident correspondent wires that there is a distinct feeling of confidence in the future of the port. In fact, far from any fears being entertained that it may be injured by rivals, to his absence this morning all the cases many reasons exist for believing that will forge ahead on a still greater scale Competing centres may be as enterprising as they like, but possession is nine points of the law and the extensive works nov being carried out to improve the trading and shipping facilities at Singapore will, when completed, place this well equipped and successible port in an unassailable coming from a pawnbroker's shop at Yauposition for dealing with the vast trade which will continue to be attracted in increasing quantities. In addition to the distributing trade, local industries are also being pushed ahead, the cultivation of rubber, for instance, having experienced a very great impetus recently, at

the Colony. There is no reason, therefore, for regarding Singapore in any other A meeting of the Sanitary Board will be light than as being assured of its historicposition as the "Gateway of the East," supreme as the great trade entrepot of this part of the world .- " British Export

BRIDEGROOM MOBBED.

Extraordinary scenes marked the wedding of a local railwayman at Hull recently. The ceremony took place at King's Hall, and about five hundred persons, friends of the bridegroom, gathered outside the building, carrying bags of peas, confetti, and rice. After the ceremony the bride and bridegroom became separated, and while the bride succeeded in reaching her home safely, the bridegroom was forced to retreat into the hall, gesting considerably hustled on the way.
